There was little doing in market yesterday except in corn, which was lower. Fruits come in slowly, the apples are not up to the average of former years in quality; potatoes were in very small arrival and prices re-mained low. The New York Bulletin, of Saturday, reports: "Crop reports continue favorable. The recent cold, wet weather, so far from working serious injury, as many apprehended it would, has on the contrary im-proved the wheat, so that it is turning out much better than was expected. This as regards Minnesota, Wisconsin, Iowa and Kansas. From Nebraska and Missouri also there is no news that is not good news." An Associated Press dispatch from London says that Hoyle & Sons, grain merchants, of Liverpool, have failed, with liabilities of \$250,000. The numerous failures in the grain trade are due in some measure to the decline in prices caused by the reports concerning the immense wheat crop forthcoming in the United States. This, combined with the increased

probabilities of peace, has made an advance in prices for many months to come an impossibility, and speculative dealers have suffered heavily. Produce shipments last declined; sales of 800 sacks of white at 48c; Gold opened at 100% and 100, 200 and 400 sacks, white, at 49c. Oats sale of 25 sacks of Ohio at 33c. Branr cent. The developments would seem to show a loss of strength on the general position and a waning confidence among some of the bulls. The evidences of a desire to unload were more prominent than before, and while the offering has been taken up fairly, the weight was too great, and a shading on values has been shown on most of the business transacted.

It is, moreover, the progenitor of numerous and formidable bodily disorders. Obstinate as it is, however, its complete eradication may be effected by the persistent use of Hostetter's Stomach Bitters, a medicine which communicates both vigor and regularity to the organs of digestion and secretion, relaxes the bowels gently, but thoroughly enriches and purifies the blood, promotes appetite, and gives tranquility to the nervous system. Persons of weakly constitution and feeble physique who use this superb tonic infallibly derive from it the stamina of which they stand so much in need, and it is invariably successful in remedying and preventing malarial diseases.
